

Greater Cincinnati Hazardous Materials Control Committee, Inc

MEETING AGENDA

DATE: 09/17/2015

Roll Call; Introductions.

Treasurers Report- Jeff Burt

Secretary's report- Dave Doerger- Pictures from the Dinner Cruise are uploaded to the web site. Member list being generated for the site as well

Equipment report- Unit 1 –PCNA/ Unit II- BP Bromley/ Unit III PG

New Business;

Boom deployment has been postponed to a future date due to construction restrictions at PCNA. If anyone has any additional ideas where to hold, please contact Mike Doll

Fire Drill will be next month held at Transmontaigne on Oct 16th. All members will receive a certificate of training. If you have members in your organization that needs this certification, it is encourage to have them come to the drill. Lunch will be provided. Door prizes are being requested. Please contact Art Hilton 859-331-0900

Discussion of current financial status of GCHMCC and if there are any recommendations or ideas on how to use some of the funds we have. FSO training, etc.. ??

Ohio EPA- Bill Lohner- discussed the Green/ Blue algae that we are experiencing on the OH river and Brookville. This is being generated from the warm weather and the additional nutrients being found in the water from run offs.

Hamilton EMA- Barry Webb- discussed upcoming training seminars. Active shooter class w FBI will be Jan 12-13.

Hamilton LEPC- Rick Jones- Release reporting is at 25%. Please make sure LEPC is third on your list of calls during emergency. State of Colorado just passed Electronic report filing and they are trying to follow that policy as well. Drones are considered suspicious activity and if seen flying over your facility should be reported to the FBI. Mike Doll has joined the LEPC membership and now an active member within the group.

Eric Thomas – Benchmark- The ILTA annual membership meeting will be held here in Cinton, Oct 21-23rd. Members may be stopping out to the local terminals that they are associated with. The Ohio Freight Conference was also held here this past week. Focus of this conference was the inland River transportation and the use of the Ohio River.
